Applicant: Knut Adermann, et al.

Appl. No.: 10/539,627

International Filing Date: December 19, 2003

Title: PEPTIDES AND THEIR USE FOR THE TREATMENT OF HIV INFECTIONS

Attorney Docket No.: P70650US0

Pub. No.: US 2007/0072805 A1

Pub. Date: March 29, 2007

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on April 27, 2009, for the above-identified application.

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains material errors on the front page of the publication wherein the name of the first inventor Knut Adermann was printed incorrectly as Knut Andermann.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.¹

The request for corrected publication, received on April 27, 2009, was not timely filed under 37 CFR 1.221(b).

Moreover, the error on the front page of the publication wherein the spelling of the first named inventor is incorrect may be Office error, but is not a material Office error under 37 CFR 1.221. The misprinting of the inventor's name does not affect the understanding of the application. The mistake does not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application publication or determine

the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.
